## Create and print beautiful photo projects.

With Artisan desktop software for Windows, you can create beautiful page prints, photo books, calendars, cards, wall art, and more.

## Great for beginners & experts.

Beginners love how easy it is to get started with Forever Artisan scrapbooking software. Experienced users enjoy the ability to refine every element of their photo projects using Artisan's powerful array of photo-editing tools, brushes, overlays, filters, stamps and more.

## Share your stories.

Simply pick your favorite photos and let Forever Artisan do the work. Create page prints, photo books, cards, calendars, mugs and much more. Order these projects from our Print Shop, or share your creations online.

## Personalize with style.

We have design templates for every occasion - birthdays, holidays, weddings and more. Make your photo projects and scrapbooks perfect with digital art, including themes, backgrounds, and embellishments, all created by industry-leading designers.

*Artisan 5 requires a 64-bit version of Windows. Users with 32-bit Windows machines can still enjoy Artisan 4.*

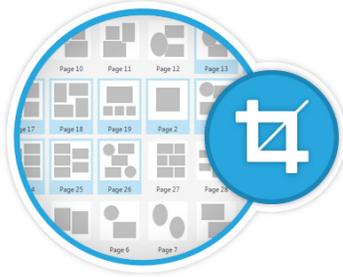

## Build a book in minutes.

The auto-populate feature suggests which pictures belong together on predesigned pages and automatically creates an entire book for you.

## Coordinate colors in infinite ways.

Change the colors of everything on the page to coordinate with a selected photo, theme or embellishment.

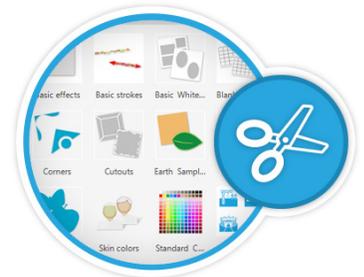

## Personalize every detail.

You can perfect each aspect of your project because Artisan scrapbooking software allows you to easily refine, change and create every page element.

## Make it pop with digital art.

Our store features great art from well known designers. This includes free built-in kits plus beautiful papers, embellishments, word art, decorative shapes and cutters available for purchase in the Forever Digital Art Store.

## Show off your style.

Grab pre-made art and use it as is, or use Artisan's tools - brushes, overlays, scissor cuts, framing and corner cutting - to make them your own.

## Edit photos with ease.

Our full-featured Image Editor allows you to adjust your photo's temperature, hue, curves, levels, contrast and more.

## Advanced Features

- See the big picture with a two-page spread editing view.
- Adjust photo temperature, hue, curves, levels, contrast, and more.
- Cut out any shape from any part of a digital paper with our Cutting Board tool.
- Create a rubber stamp from any photo or artistic element with just two clicks.
- Add decorative frames, mats and bevels.
- Use any font to cut out text from a photo, paper, or other source.
- Wrap text around elements, place text on a custom path, and create photo captions with text paths.
- Enhanced Facebook Connector allows Artisan to pull or push content to or from Facebook.
- Work while disconnected from the internet.
