- Color options:
  - Hue slider
  - Color picker pop up window
  - Sample from screen
  - Saturation slider
  - Brightness slider
- Preview: Gives you a peek at the resulting color.

## Color Wash Layers:

Recently I got my deck stained with a semi-transparent stain. A bit of color appeared with the first coat and as each coat is added the color is deepened and it appears darker. Then this week I was using Color Wash in Artisan and realized it works the same way.
